University of California, Davis  
Department of Statistics  
Postdoctoral Fellow Position in Statistics (Functional Data Analysis) at UC Davis

A postdoctoral position in the area of Functional Data Analysis is available in the Department of Statistics, University of California, Davis, beginning immediately through June 2016 with the possibility of extension depending on funding.

Requirements and Expectations: PhD in Statistics or a related field; Interest, experience and excellent skills in data analysis and in programming in R, C++ and Matlab; Interest and ability to participate in the analysis of observational nutrition and growth data; Interest in and ability for methodological research in functional data analysis. Prior experience with functional data analysis is preferred but not required.

The position is funded by a grant from the Bill and Melissa Gates Foundation (investigators: Hans-Georg Müller (hgmuller@ucdavis.edu) and Jane-Ling Wang (janelwang@ucdavis.edu)). The Postdoctoral Fellow will be mentored by the investigators. Further information about the Department of Statistics is at http://www-stat.ucdavis.edu/

UCD is an Equal Opportunity/Affirmative Action employer. Women, individuals from underrepresented groups, and veterans are strongly encouraged to apply.

To apply, submit application materials (cover letter/letter of interest, CV including list of completed computing and data analysis projects and bibliography, and contact information for references) using the following link: https://recruit.ucdavis.edu/apply/JPF00424 . The position remains open until filled.
